

IPM Third Edition

The following table identifies the changes associated with IPM Third Edition. Changes of significance are included; every attempt was made to highlight *all* changes made in this revision. It may however be the case that changes to certain provisions have been inadvertently omitted in the Revision Highlights. When this is the case, the contents of the individual IOSA provisions have precedence over the Revision Highlights.

Summary of Significant Changes (compared with the current published edition of the IIPM)
1. Significant re-organisation of many provisions
2. Significant editorial changes in wording, terminology, structure of provisions and definitions of IOSA terms throughout the manual; (1) the term “Operator” replaces “Auditee”; (2) periods of time are expressed in “calendar days” unless otherwise specified
3. Revised Tables and Figures in all sections
4. Incorporation of specifications for use of the Electronic Audit System (EAS)
5. New auditor administration requirements for AOs (IPM 1.11)
6. New and expanded IATA submission requirements for AOs (IPM 1.12); all submission deadlines referenced to “days” in lieu of “business days” (multiple provisions)
7. New requirements for IOSA Registration with Exclusions (IPM 2.1.4, 2.1.5, 2.1.6, 2.1.7)
8. New requirements for registration renewal audits (IPM 2.5)
9. New provisions to address the harmonisation of registrations (IPM 2.6)
10. New provisions that address Auditor qualification currency for approved operational audit disciplines (IPM 3.15.4, 3.15.5).
11. New provision that defines and specifies requirements for the conduct of parallel audits of affiliated operators (IPM 5.2.5)
12. Revised requirements for operational observations/assessments (Section 5, Tables 5.1 and 5.2)
13. New requirements for application of interim corrective action (IPM 1.12.7, 2.8.1, 2.5.12, 2.5.13, 2.5.14, 5.9.3, 5.9.4, 5.9.5, 8.8.5).
14. Enhanced requirements for documenting the verification of corrective action in the CAR (IPM 5.10.3)
15. New provision for application of IOSA Standards Special Review Process. (IPM 5.11.4)
16. Expanded requirements for IAR quality control (IPM 6.2 and other provisions)
17. New provision specifies requirements for IATA quality assurance observers (IPM 8.2.8)
18. New requirement for IATA monitoring programme (IPM 8.2.11)

Revision Highlights

19. New specifications for an Audit to be declared invalid by IATA (8.2.16)
20. New requirements applicable to IATA personnel that conduct accreditation processes (IPM 8.4.3)
21. Enhanced requirements for auditor approval by IATA (IPM 8.5)
22. New requirement for IATA to maintain a record of the qualifications currency of all Auditors (IPM 8.5.4)
23. New specifications for management of the registration process by IATA (IPM 8.8)
24. Replaced IPO with IATA throughout manual
