**14:00 –15:30 Addressing Security at Baghdad International Airport: from Conflict to Compliance *(registration required)***

The workshop will cover all the full range of historical, cultural and operational aspects that Sabre International had to address whilst building the case for ICAO compliance at an airport that only 4 years ago was at the end of the most dangerous road in the World.

Led by: Sabre International

Open to: All AVSEC World participants

**15:30 – 17:00 Security Management Systems (SeMS) Workshop *(registration required)***

Security Management Systems (SeMS) can lead to more efficient implementation of security measures, better use of resources and a direct reduction in cost for airlines, airports and regulators alike. This session gives an introduction to SeMS and taster of how it can help in your organisation.

Led by: IATA Security

Open to: All AVSEC World Participants
